	About Me			
Danish Winner of PLANCKS. Fun to be around.				
	Career Summary			
2024 – 2024	Student Assistant, Niels Bohr Institute Sole developer of a Virtual Reality visualization tool			
2022 – 2024	$ \begin{tabular}{ll} \textbf{Student Assistant}, ROCKWOOL \\ Development of various internal automation tools multiple Machine Learning projects \\ \end{tabular} $			
2021 – 2022	Game Developer, T. ELVESTAD  Developer and designer for a cancelled tie-in video game			
2018 – 2021	Mentor, MentorDanmark/Freelance Personal teacher of mathematics and physics			
2016 – 2017	Field Sales Consultant, CARLSBERG GROUP Presented products for potential customers			
2015 –	Independent Game Developer, $\operatorname{Schrunkin}\ I/S$ Develops, designs and publishes high-concept video games			
	Projects			
	During Studies			
2023	<b>Don't Be Afraid of the DAG</b> , DIKU, Supervised by Sebastian Weichwald Classifying metrics for Directed Acyclical Graphs (specifically Bayesian Networks) – Link			
2020	$\label{eq:machine Learning in High Energy Physics} \ \mathrm{CERN/NBI}, \ Supervised \ by \ Troels \ C. \ Petersen.$ $Statistics \ on \ experimental \ data \ in \ High \ Energy \ Physics \ using \ Machine \ Learning - Link$			
	Personal			
2023	MaylPleaseStream A web-app – Javascript React frontend / Python Flask backend. – Link			
	Education			
2022 –	Msc. Complex Physics, UNIVERSITY OF COPENHAGEN Thesis about simulating morphology-changes during Drosophila gastrulation			
2021 - 2022 (unfinished)	<b>Bsc. Machine Learning and Data Science</b> , UNIVERSITY OF COPENHAGEN A challenge to complete the three year Bsc. in one year. Got 3/4 of the way and <i>real</i> tired of exams			
,	Bsc. Physics, University of Copenhagen  Bachelor project was about optimizing Neutrino Detection at IceCube given Monte Carlo data—Link			

2013 – 2016 High School, Sankt Annæ High School

Music-oriented High School. High level Maths, Physics
